Part of our 35 acres of small evergreen trees.

First man with trees in left hand and shovel in right is ready to make the hole. Second man is inserting shovel straight into the ground. Third man has inserted the shovel and has the handle pushed ahead, forming opening for tree back of shovel. Fourth man, while keeping shovel pushed ahead with his foot, has taken one tree from the bundle carried in his left hand and is putting it in hole. Fifth man has removed shovel and is closing opening by stamping each side of it with his heel. On cleared land such as shown in this picture, one trained man can easily plant 2,000 trees a day.

*Order It With Your Trees. Pays for itself every day you use it.*

PRICE \$5.00

A man will plant well over 1,000 trees a day with this improved planting tool.
